.. Not available. GNI is gross national income (gross national product, or GNP, in previous editions). PPP is purchasing power parity.

Note: Rankings include all 208 World Bank Atlas economies, but only those with confirmed Atlas and PPP GNI per capita estimates or those that rank among the Atlas top twenty are shown in rank order. Figures in italics are for 2001 or 2000. a. 2002 data not available; ranking is approximate. b. Data include the French overseas departments of French Guiana, Guadeloupe, Martinique, and Réunion. c. Estimate is based on regression; other PPP figures are extrapolated from the latest International Comparison Programme benchmark estimates. d. Estimate is based on a bilateral comparison between China and the United States. e. Data refer to mainland Tanzania only. f. Estimated to be low income (\$735 or less). g. Estimated to be upper middle income (\$2,936 to \$9,075). h. Estimated to be high income (\$9,076 or more). i. Estimated to be lower middle income (\$736 to \$2,935).
